

**CREATIVE  
OFFICE**

Breaking ground in 2018, these buildings are designed with tech, creative office, and lab users in mind. Generous amounts of natural light from two levels of windows connect these office buildings with the adjacent interactive landscaping. Roll-up, glass overhead doors offer an opportunity to let the fresh air into the workspace, or just step out back for a game of ping pong or bocce ball.

- 10,000–409,350 SF of Creative Office Space Available
